

# Table of contents

|  |             |
|--|-------------|
| <b>List of abbreviations .....</b>   | <b>vi</b>   |
| <b>Abstract.....</b>   | <b>vii</b>  |
| <b>Kurzzusammenfassung .....</b>   | <b>viii</b> |
| <b>1      Introduction .....</b>   | <b>1</b>    |
| <b>2      Theoretical Framework for ‘Authentic Chemistry Teaching’ .....</b>   | <b>5</b>    |
| 2.1   ‘Authentic’: Diverse Uses of Authenticity in Science Education.....  | 5           |
| 2.2   ‘Authentic Chemistry’: General and Domain-specific Elements of Scientific Practice.....  | 11          |
| 2.2.1   Approximating ‘authentic chemistry’ .....  | 11          |
| 2.2.2   Building on scientific practices .....   | 12          |
| 2.2.3   Conclusion.....  | 17          |
| 2.3   Arguments for ‘Authentic Chemistry Teaching’: Authenticity and its Relation to Scientific Literacy .....                                     | 21          |
| 2.3.1   Scientific literacy as a main educational goal world-wide .....  | 21          |
| 2.3.2   PISA and its concept of scientific literacy.....   | 25          |
| 2.3.3   German science education documents.....  | 28          |
| 2.3.3.1   Scientific literacy in German science education documents .....  | 29          |
| 2.3.3.2   German science education documents: Standards and competences .....  | 30          |
| 2.3.3.3   Comparison between the PISA concept of ‘Scientific Literacy’ and the German national standards.....                                      | 32          |
| 2.3.4   Authenticity, scientific literacy and German national standards: A summary and a first terminology of ‘authentic chemistry teaching’ ..... | 33          |
| 2.4   ‘Authentic Chemistry Teaching’: The Situation in School and University .....   | 37          |
| 2.4.1   School students’ conceptions .....   | 37          |
| 2.4.2   The teacher’s role .....   | 39          |
| 2.4.3   Successful instruction .....   | 41          |
| 2.4.4   Arriving at a definition: ‘Authentic chemistry teaching’ .....   | 42          |
| <b>3      Establishing the Research Project .....</b>  | <b>45</b>   |
| 3.1   Principles for Course Design .....   | 48          |
| 3.2   Principles for Research Tools .....  | 49          |
| 3.3   Summary .....  | 52          |
| <b>4      Step I: Pilot Study “Chemistry meets Chemistry Education” .....</b>  | <b>55</b>   |
| 4.1   Overview .....   | 56          |
| 4.1.1   Participants .....   | 56          |
| 4.1.2   Course design .....  | 56          |
| 4.1.3   Research tools.....  | 58          |
| 4.2   Results .....  | 59          |

|          |  |            |
|----------|--|------------|
| 4.2.1    | Categorization of teacher students' conceptions: A tool for description and basis for analysis.....  | 60         |
| 4.2.2    | Investigation question 1: The teacher students' pre-conceptions about chemical research .....  | 62         |
| 4.2.2.1  | Findings: Teacher students' pre-conceptions.....   | 62         |
| 4.2.2.2  | Discussion of teacher students' pre-conceptions .....  | 72         |
| 4.2.3    | Investigation question 2 and 3: The teacher students' post-conceptions about chemical research and influence of the course elements on this development..... | 73         |
| 4.2.3.1  | Findings: The teacher students' post-conceptions .....   | 73         |
| 4.2.3.2  | Findings: The teacher students' reflection in regard to the course elements .....  | 75         |
| 4.2.3.3  | Discussion of the development of teacher students' conceptions and the influence of course elements .....  | 83         |
| 4.3      | Looking Back and Looking Forward.....  | 87         |
| <b>5</b> | <b>Step II: Study “Chemistry meets Chemistry Education II” .....</b>   | <b>93</b>  |
| 5.1      | Overview.....  | 94         |
| 5.1.1    | Participants .....   | 94         |
| 5.1.2    | Course design .....  | 94         |
| 5.1.3    | Research tools.....  | 98         |
| 5.2      | Results.....   | 99         |
| 5.2.1    | Investigation question 1: The development of teacher students' conceptions about chemistry/ chemical research.....   | 99         |
| 5.2.1.1  | Findings: Teacher students' pre- and post-conceptions .....  | 100        |
| 5.2.1.2  | Discussion of the development from pre- to post-conceptions.....   | 105        |
| 5.2.2    | Investigation question 2: Ideas for and problems of practical transformation of conceptions.....   | 109        |
| 5.2.2.1  | Findings: Teacher students' practical transformation .....   | 110        |
| 5.2.2.2  | Discussion of teacher students' practical transformation, ideas and problems .....   | 118        |
| 5.3      | Looking Back and Looking Forward.....  | 122        |
| <b>6</b> | <b>Step III: Study “Reflecting Inquiry-based Contexts” .....</b>   | <b>127</b> |
| 6.1      | Overview.....  | 128        |
| 6.1.1    | Participants .....   | 128        |
| 6.1.2    | Course design .....  | 128        |
| 6.1.3    | Research tools.....  | 132        |
| 6.2      | Results.....   | 136        |
| 6.2.1    | Investigation question 1: The development of teacher students' conceptions about chemistry as a science and ways of gaining knowledge in chemistry .....     | 136        |
| 6.2.1.1  | Findings: Stages of teacher students' development from pre- to post-conceptions  | 138        |
| 6.2.1.2  | Discussion of development from pre- to post-conceptions.....   | 161        |
| 6.2.2    | Investigation question 2: Extent of teacher students' application of conceptions to aims of chemistry education and ideas for transformation.....            | 167        |
| 6.2.2.1  | Findings: Connection between conceptions about chemistry and ideas for transformation.....   | 168        |
| 6.2.2.2  | Discussion of teacher students' application of conceptions to aims of chemistry education and ideas for transformation.....                                  | 179        |
| 6.3      | Looking Back and Looking Forward (Study IV) .....  | 181        |
| <b>7</b> | <b>Answering the Research Questions .....</b>  | <b>189</b> |

|          |  |             |
|----------|--|-------------|
| 7.1      | Answering the Research Questions - Part I: Summarizing and Contrasting the Results of all four Studies ..... | 189         |
| 7.2      | Answering the Research Questions - Part II: Transfer of the Results into the Module .....                    | 196         |
| <b>8</b> | <b>Conclusion and Outlook .....</b>  | <b>207</b>  |
| <b>9</b> | <b>Summary .....</b>   | <b>211</b>  |
|          | <b>Reference list.....</b>   | <b>217</b>  |
|          | <b>List of figures.....</b>  | <b>xi</b>   |
|          | <b>List of tables .....</b>  | <b>xv</b>   |
| <b>A</b> | <b>Appendix .....</b>  | <b>249</b>  |
| A.1      | Citation and Translation.....  | 249         |
| A.2      | PISA Studies .....   | 256         |
|          | A.2.1 Development of scientific literacy concept used in the PISA studies .....                              | 256         |
|          | A.2.2 Assessment in the PISA surveys .....   | 257         |
| A.3      | National Standards and Core Curricula.....   | 258         |
|          | A.3.1 National standards for chemistry: Translation of competence .....                                      | 258         |
|          | A.3.2 Core curricula in NRW.....   | 261         |
| A.4      | Teaching Degrees at the University of Cologne .....  | 262         |
| A.5      | Studies – Further Information.....   | 263         |
|          | A.5.1 Study I (Pilot study).....   | 263         |
|          | A.5.2 Study II (“Chemistry meets Chemistry Education II”).....   | 274         |
|          | A.5.3 Study III (“Reflecting inquiry-based contexts”)  | 284         |
|          | A.5.4 Study IV (Review of Study III) .....   | 288         |
| A.6      | Planning the Module .....  | 293         |
|          | <b>Acknowledgment.....</b>   | <b>xvii</b> |
|          | <b>Erklärung.....</b>  | <b>xiv</b>  |
