1	Introduction	5
2	Preliminaries	9
2.1	Fréchet spaces	9
2.2	Measure and measure space	15
2.3	Fréchet function spaces	27
2.4	Vector measures	38
2.5	Integration on topological groups	48
3	The optimal domain and integral extension of the operator T	53
3.1	The natural inclusion map $j : X(\mu) \rightarrow Y(\mu)$	54
3.2	The vector measure m_T associated with T	63
3.3	The optimal domain and integral extension of the operator T	69
4	Applications	73
4.1	Multiplication operators	75
4.1.1	Multiplication operators on $L^{p^-}([0, 1])$	75
4.1.2	Multiplication operators on $L^p_{\text{loc}}(\mathbb{R})$	85
4.2	The Volterra operator	94
4.3	The convolution operator	112
5	Conclusion	125
	Bibliography	131
