

Table of Contents

German Title of this Thesis	I
Table of Contents	III
Kurzzusammenfassung	1
Abstract	3
1 Introduction	5
1.1 <i>N</i> -Heterocyclic carbenes	6
1.1.1 General properties of NHCs	6
1.1.2 Synthesis strategies to NHCs	8
1.1.3 Application of NHCs	12
1.2 Porous crystalline materials	13
1.2.1 Metal-organic frameworks	14
1.2.2 Covalent organic frameworks	19
1.2.3 Frameworks containing building blocks with NHCs/imidazolium salts	21
1.3 Hyperpolarized NMR	24
1.3.1 Basics of Nuclear Magnetic Resonance (NMR) spectroscopy	24
1.3.2 Hyperpolarized NMR	26
1.3.3 Heterogeneous hyperpolarization experiments	30
1.3.4 SABRE in water	31
2 Objective	35
3 Main Section	37
3.1 Synthesis of NHC-iridium complexes	37
3.1.1 Precursor materials and building blocks	38
3.1.2 Anchoring group-functionalized imidazolium salts	45
3.1.3 Anchoring group-functionalized NHC-iridium complexes	90
3.1.4 Fluorinated NHC-iridium complexes	107
3.1.5 Water-soluble NHC-iridium complexes	114
3.2 MOF materials	124
3.2.1 SURMOFs with NHC-iridium-functionalized linkers	124
3.2.2 UiO-68 MOF with an NHC-iridium-functionalized linker	127

3.3	SABRE studies	133
3.3.1	SABRE experiments with model compounds and linker precursors..	133
3.3.2	SABRE experiments in water	138
3.4	Synthesis of novel functionalized linkers.....	141
3.4.1	TADF active linkers for the fabrication of fluorescent SURMOFs	141
3.4.2	Synthesis of chiral BINOL linkers for the fabrication a chiral UiO-67 SURMOF	144
3.4.3	UV-induced photo-ARBUZOV reaction for C-P bond formation of aryl halides	146
4	Conclusion and Outlook.....	149
4.1	Synthesis of novel NHC-iridium complexes	149
4.1.1	Complexes for the application as linkers in MOFs	149
4.1.2	Complexes for the application in fluorinated solvents and aqueous media	153
4.2	Fabrication of MOF materials.....	154
4.3	SABRE experiments.....	155
4.4	Synthesis of novel linkers.....	157
5	Experimental section	159
5.1	General remarks	159
5.1.1	Materials and Methods.....	159
5.1.2	Devices.....	161
5.2	Synthesis procedures and analysis to chapter 3.1.....	164
5.2.1	Synthesis procedures and analysis to chapter 3.1.1	164
5.2.2	Synthesis procedures and analysis to chapter 3.1.2	190
5.2.3	Synthesis procedures and analysis to chapter 3.1.3	279
5.2.4	Synthesis procedures and analysis to chapter 3.1.4	307
5.2.5	Synthesis procedures and analysis to chapter 3.1.5	317
5.2.6	Determination of TEP.....	343
5.3	Fabrication of iridium-functionalized UiO-68 MOFs.....	358
5.4	Results of SABRE experiments	361
5.5	Synthesis procedures and analysis to chapter 3.4.1.....	363
5.6	Crystallographic data	371

6	List of abbreviations	381
7	Bibliography.....	385
8	Appendix.....	i
8.1	Curriculum vitae	i
8.2	List of publications.....	iii
8.3	Acknowledgement	v
